EZ 12 ~ Parts

EZ 12 Connection System

Corner Connector A
EZ12-CCA

CCA: Use these to attach a horizontal truss to the very top of a vertical truss on the ladder side, (the side you can put collateral shelves into) or the side opposite the ladder side.

Corner Connector B
EZ12-CCB

CCB: Used to attach a horizontal truss to the top of the OTHER 2 sides of a vertical truss. (Truss adjacent to the sides a CCA would connect to.)

Using one of these you can also attach a horizontal truss at a junction in the vertical truss on the ladder side (or the side opposite the ladder side.)

Corner Connector C
EZ12-CCB

CCC: Use this for horizontal trusses being attached to vertical truss, at a junction, on the sides ADJACENT to the ladder side.

Corner Connector D
EZ12-CCB

CCD: Use this to attach a horizontal truss to another horizontal truss - anywhere along the span.

Rotating Curve
5° - 90°
